## AUTOMATIC DIAL CALIBRATION TESTER

Multitek Technologies have a wide range of Dial Calibration Testers and we also have a customized setups for Dial Calibration Testers.

As you see in images this our fully automatic Dial Calibration Tester. We can easily calibrate our various ranges of dial gauges gauge on this system very precisely with help of the 10" Touchscreen on the setup.

We can also save results and take reports of tested gauges through touch screen.

We also provide a manual movement wheel for manual measurements on this setup
